

# Jodau Fofipa (Mind Cleaner)

The Jodau Fofipa (Mind Cleaner) is a drug developed by the [Poku Saeruo Degonjo](#), and which wipes the recent memories of those it is given to. This drug falls under the [Wapointe \(Healing\)](#) umbrella of Clan technology.

## History

In the clan year 747, ([YE 29](#)) the [Poku Saeruo Degonjo](#) successfully developed and began using Jodau Fofipa (*Mind Cleaner*) as an alternative method of dealing with prisoners. The [Otâmovi Wiy Jael \(Silver Moon Sect\)](#) developed Jodau Fofipa using toxins extracted from plants grown and manipulated by the Tula of the [Poku Vit \(Plant Clan\)](#).

## Use Cases

Jodau Fofipa is typically administered to unconscious prisoners, but it can be given to conscious ones. The drug is injected into the veins of the patient. There are different formulas for different metabolisms, and it can be difficult to create a formula of Jodau Fofipa that can affect an unfamiliar alien species.

## Effects

Upon being injected into a patient, and if the toxin has been correctly mixed and modified for the subject's metabolism, the first effect of the Jodau Fofipa is to cause a chemically-induced coma-like state. Patients who were conscious are rendered unconscious at this time. Next, depending on the size of the dosage given, the Jodau Fofipa cleanses between 15 minutes and 2 hours of memories. No memories older than 2 hours have ever been recorded as being removed by applications of Jodau Fofipa. The patient remains in an unconscious state for between 2 and 4 hours, depending on their metabolism. Skilled Healers can awaken the subject as soon as 2 hours by using an administration of drugs.

## Overdose

Additional doses of Jodau Fofipa merely extend the state of unconsciousness of a subject. An overdose of this toxin can lead to symptoms similar to [Toxic\\_shock\\_syndrome](#), and even death. Only a very amateur and inexperienced [Wapoin'aka \(Doctor\)](#) would give a patient an overdose of this toxin sufficient to kill a patient. This drug does not make an effective tool for execution, as it requires a great deal of the base plant materials to produce enough to wipe memories, and far more to actually cause death.

## Species Formulas

By YE 46, the [Poku Saeruo Degonjo](#) has developed formulas of Jodau Fofipa that can wipe the memories of the following species:<sup>1)</sup>

[Qaktoro Tula Qakla Tuoro](#)

## OOC Notes

- Article created by [Nashoba](#).

<sup>1)</sup>

At the time of this writing, there has been no roleplayed instances of the drug being used on any other species
