

Otâgo'iâmai (New Worlds)

The Otâgo'iâmai (New Worlds) refers to both a Clan project, and the systems that the project proposes to colonize. New Worlds marked a major shift in the *Clan's* policies and goals in 754 CY [YE 35](#), following the [YE 35 HSC - YSE Treaty](#).

The Worlds

The Otâgo'iâmai are a number of systems to the galactic east of the [Degonjo Saeruo \(Hidden Sun System\)](#) in the [Kikyo Sector](#). These systems were periodically visited by the Clan during [Seeker](#) missions to identify resources for later collection by [Gatherers](#).

When the [NMX](#) seized these worlds during the [Second Mishhuvurthyar War](#) beginning around [YE 31](#), the clan could no longer reach them. After meeting with the [Yamatai Star Empire](#), the clan made it clear that they were claiming these systems for their future use. See [Lumujo Saei \(Territory\)](#).
