

# Gulvisanorpa'a (Fighter Pilot)

Within the [Poku Saeruo Degonjo](#), members with this [occupation](#) are the trained operators of the [Gulvisa](#) fighter craft, which is the primary small, swift starship in the Clan's roster of [spacefaring vessels](#). Fighter Pilots are trained to fly their craft in space and in atmospheric environments. They also have training in navigation, weapon system operation, and fighter tactics. These pilots spend a great deal of time in the [Ruonor Gulvisa \(Fighter bay\)](#) of a space station or starship, or in the planet-side hangars; their assigned fighter is one of the most important elements in their lives, and successful Clan fighter pilots form an almost mystical bond with their ship.

## Distinct From Other Pilots

The occupation of Fighter Pilot is distinct from the occupation of [Âdornorpa'a \(Pilot\)](#). Pilots are trained to serve as one part of a crew of a larger vessel, and their exclusive responsibility is the piloting of that ship. A Fighter Pilot must be familiar with all of the systems of their small craft, and they train exclusively with that ship; a Pilot may serve on a number of different vessels of varying size and configuration. Pilots can become Fighter Pilots, and vice versa; they simply change their occupation and can experience a different kind of flying.
