

# Wuny Tin (Ship's Locker)

The Wuny Tin is typically a small compartment set up for storage. It is equipped with shelving. It is accessed through a [Anomu Wunyte \(Security Door\)](#). Most of the time the Wuny Tin is a small generally unusable area for any vital ship function.

The room is used for storing miscellaneous supplies that the crew acquires and wants to share. It differs from an [Wuny Movi \(Space Locker\)](#) which has a specific purpose.

Typically crew members must clear with their Ta'a before adding anything to the locker.

Hull braces composed of [Mâqirây \(Bound Metal\)](#) protrude from the side [Anoi \(Walls\)](#). The room has [Damira Jyaonpa \(Environmental Controls\)](#), and an intercom station for the occupants. There are ceiling mounted [lamps](#). There are [Tyo'te Wuny'ta \(Fire Suppression\)](#) nozzles in the ceiling.
