This page contains information regarding the units of time used by the Poku Saeruo Degonjo. The Poku'vona! term for time is "Usonor", or literally 'life passage'. The units of time come from their original home world that they still use as their standard.

The Clan reckons years in Clan Years (CY). The 'first' Clan Year was CY -50, when the last living people of the crumbling Qaktoro Empire prepared to flee their world by assembling the home world. CY -50 is equivalent to YE 770. CY 0 is the date of the founding of the Hidden Sun Clan, and their settling of the Degonjo Saeruo (Hidden Sun System).
