

HCPA (Heavy Charged Particle Accelerator) Cannon

A scaled up, highly focused particle-based weapon, the HCPA is to the [LCPA](#) as the [CEHB](#) is to the [CELB](#). It is the main weapon array found on IAC starships of military make, and is one of the single most potent weapons systems fielded thus far by the [Iromakuanhe](#). It can effectively rip through most shield systems thanks to the strong electric charge the particle beam possesses, and deals very heavy damage to conventional materials.

Location: Starship-Mounted Purpose: Heavy Anti-Starship Secondary: Anti-Shield Damage: T12, Electrical Damage

Range: 15 000 KM in Space Rate of Fire: One burst every 5 seconds of charging Area of Effect: 40 Meters Muzzle Velocity: .25c Ammunition Effectively Unlimited
