

# LSDF Live Theater and Concert Facilities

Designed to provide a venue for visiting performers, and for performers within a crew, live theater and concert facilities can be built to scale to provide a venue which can be as simple as a small stage, to a full scale concert hall on ships which are able to accommodate such a large compartment. These facilities can be built to include high-end audio equipment, volumetric projectors, image presentation equipment, pyrotechnics, and various other special equipment required for spectacular theatrical and musical performances.
