

# LSDF Standard Tactical Bridge

The LSDF Standard Tactical Bridge is an alternative command bridge which is intended to be used as a tactical coordination center. The Standard Tactical Bridge is intended to be fielded by the LSDF and associates.

## Information

The LSDF designed Standard Tactical Bridge is a compartment designed to be utilized as an additional point of command aboard starships. This version of the bridge design is intended to be utilized as a dedicated tactical coordination center aboard starships. Due to the dedicated role of the tactical bridge, a number of functions have been reduced in favor of optimizing usage in combat situations.

## Stations

### Command Station

Located in a central position, the command station consists of a single command chair which is manned by the officer assigned to command the tactical bridge. The command chair includes a [Neural Interface System](#) with multi-configuration volumetric and [Pico-Jelly](#) hybrid interface.

### Primary Monitor

The primary monitor in the tactical bridge application has been designed to include an OLED treated [Pico-Jelly](#) monitor surface, which allows the monitor to separate, indicate depth, or even add additional surfaces, an additional volumetric projector has been installed as well.

### Workstations

The workstations in the tactical bridge application are half integrated into the bulkheads of the bridge, and also have console-like portions as well which protrude from the bulkhead. Each workstation includes a chair with neural interface. Each workstation also includes a [Pico-Jelly](#) and volumetric hybrid display/interface, flat reconfigurable interface panel, and standard keypad interface. All consoles also include a biometric identity confirmation system.

### Station Listing

Forward

- Weapon Control & Helm

## Right

- Fleet Communication and Control
- Internal Security & Coordination

## Rear

- ARIA Interface Tank Hatch

## Left

- Sensor Station
- Engineering

## Center

- Command Chair & Console

## Weapon & Supply Locker

Located to the rear of the tactical bridge is a weapon locker which is located beside the tactical bridge door. The weapon and supply locker has both locked and unlocked compartments, locked compartments can be accessed through the use of a biometric identity confirmation system.
