

NMX Medical Kit, Type 33

In [YE 33](#), the [NMX](#) began providing a basic medical kit to its troops. It is designed for use with [Mishhuvurthar](#) and [Nekovalkyrja](#) soldiers. The kit is contained in a small brown cloth pouch that can be worn on the belt.

Contents

- Burn cream (dissolves burned flesh and numbs pain)
- [Liquid Bandage](#) sprayer
- Nekovalkyrja blood injector with built in nutrient pack (Sustains blood for up to 3 years)
- Pressure dressing (bandage) kit, sealed
- Scissors (for removing clothing) in a sealed sterile plastic wrapper
