

NMX Type 33 Camouflage Smock

In [YE 33](#), the [NMX](#) introduced a reversible pullover camouflage smock for its humanoid soldiers serving in jungle environments such as [HX-13](#).

The smock is somewhat baggy and short-sleeved and hangs down to just above the knee. It has two pockets that open on both sides of the garment. The main side features a new jungle pattern while the reverse features a brown version. A subdued version of the SMN flag patch is sown onto both sides. The smock is water-resistant and designed so that it gains minimal weight when wet and to dry quickly.

Uses

The smock is worn over the [Type 31C Camouflage Uniform](#) or the [Type 31D Dark Camouflage Uniform](#).

- The brown side is good for the jungle floor, and for muddy areas.
- The green side is good for the canopy and vegetated areas

- Rank is not worn on the smock.
