

NMX Battle Buggy (Type 31)

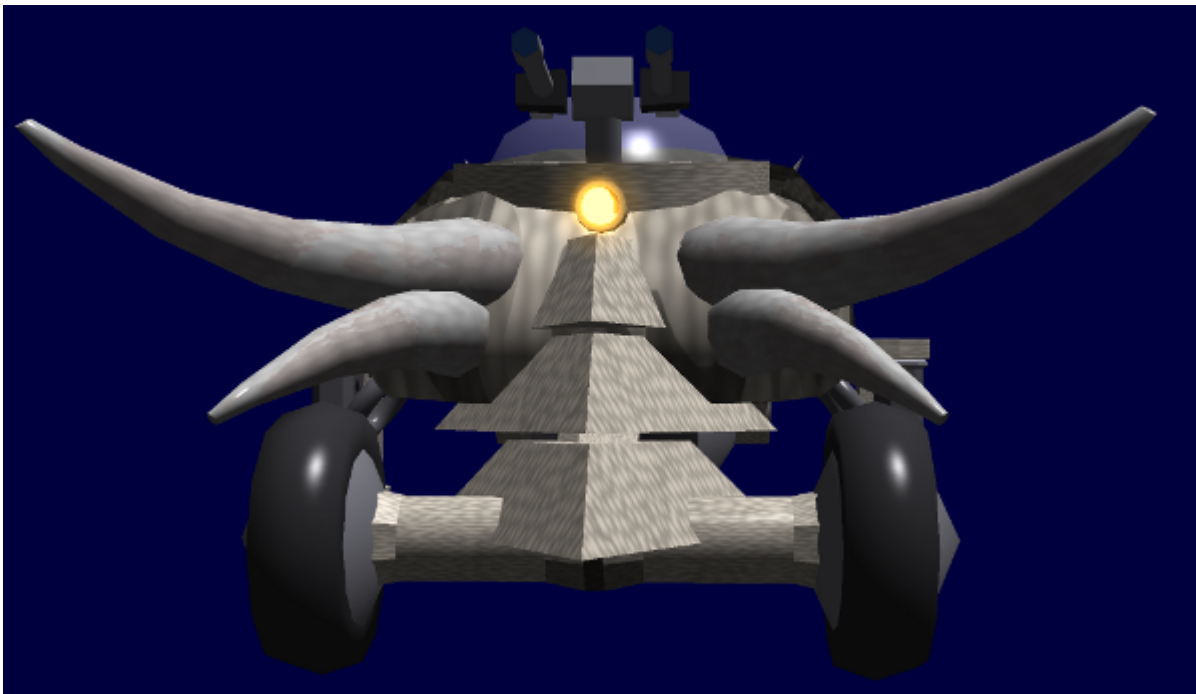

The NMX Battle Buggy is a three-wheeled all-terrain scout and light personnel transport vehicle used by the [NMX](#).

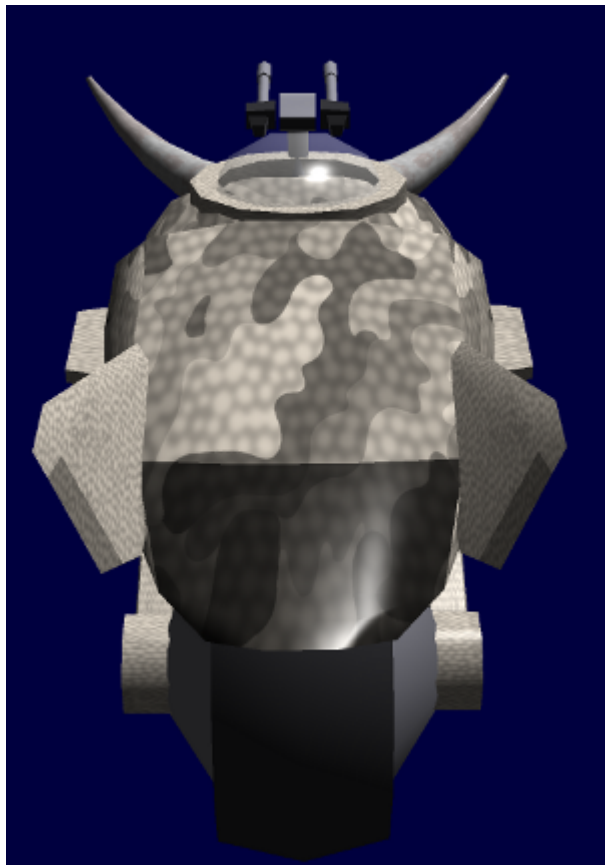

Features

- [Yama-Dura](#) Armor (16 SP)

- [Transparent Durandium](#) Viewing Bubble (separated from the main compartment by an armored hatch)
- Remote-Operated Rapid-Fire Turret (Tier 5 or Tier 6, Medium Anti-Armor or Heavy Anti-Armor ( **Fix Me!** : Staff needs to determine which))
- Rotating forward axle (makes the buggy extremely maneuverable)
- Standard NMX Sensor Systems
- Seats 5 Humanoids or 2 Mishhuvurthyar
- Requires 2 humanoids (driver and gunner) or 1 Mishhu (uses tentacles for both positions) to fully operate.
- Tusks for ramming infantry
- Hardpoints (1 on each side) can be mounted with:
 - Missile Launchers
 - Rocket Engines (for extreme jumps)
 - Sensor Drone Launchers
