

NDC Fleets And Postings

This page lists and details the composition of each of the NDC's fleets, as well as basic details regarding their operations and postings.

Garrison Fleets

The majority of the NDC's fleets are garrison fleets, assigned to defend a star system against foreign incursion. Each garrison fleet features a powerful core of capital vessels, as well as escorts. Each garrison fleet is split into five equally sized squadrons, three of which remain on standby above the system's capital, and the other two of which are on patrol.

Sanctum

Home system of the [New Dusk Conclave](#), and their capital world of [Sirris VI](#), where their seat of government is. The majority of their military and naval power, lays here, in defense of the home world.
