

Nepleslian Body Bag

The Nepleslian body bag is a sealed plastic bag used for the transport of dead bodies from their place of death. It comes with a carrying sleeve. It became available in [YE 35](#) and is one of the types used by the [Star Military of the Democratic Imperium of Nepleslia](#) as well as many civilian agencies and hospitals.

Tip: Don't have a body bag? Use an old rug!

About the Nepleslian Body Bag

The [YE 35](#) standard model of Nepleslian Bodybag is functionally identical to the [Star Army Body Bag, Type 35](#) but in a red color. Design rights were purchased from [Ketsurui Zaibatsu](#) and it is produced by local manufacturers under license.

In the old days, dead Nepleslians were traditionally wrapped in their gray wool blanket and belts were used to tie the blanket around the corpse. Having a seal-able bag is a major health improvement.
