

# Na-F/A-6

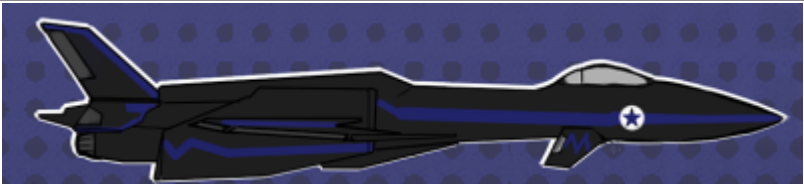

Designed in [YE 36](#) and fielded in [YE 37](#), the F/A-6 series of starfighters were the fruits of “Project Reaper,” lead by [Lt. Commander Jayden Solaris](#) of [Aquila Flight](#).

## Variants

The F/A-6 features two sister craft: the first, the Scythe is an ace-restricted design field-tested by

members of [Aquila Flight](#) after [the attack on Fort Sentinel](#); the second, the “Sabre,” is a more streamlined and general purpose craft adopted by the [Nepleslian Star Navy](#).
