

NAM Power Armor Tower Shield

The [NAM](#) Tower Shield is a tool developed for use by existing and future [SMDIoN](#) power armors. It was developed initially for the [NAM Terratech Heavy Assault Armorsuit - "Devastator"](#) in [YE 36](#) but is usable by any Nepleslian power armor. After much research, NAM finalized the shield into a rectangular shape that curves slightly inwards to allow kinetic rounds to deflect off.

The shield itself is made of a [Durandium Alloy](#) frame with [Nerimium](#) armor plates added to the frame. The frame and armor plates are then coated with energy-absorbing nano and heat-resistant paint. This combination is the best that NAM can provide in terms of mobile protection. The shield is attached to a power armor's left arm by magnetic clamp. On the clamp is a 360 degree rotary unit to allow the Marine to adjust the shield's facing.

Being Nepleslians, NAM further added a small holster for a [VBCS knife](#) as well as a [three-barreled 30mm chaingun](#) to the bottom of the shield. Since the chaingun is invisible when the shield is planted, the Marine inside can quickly lift up the shield, point his arm towards the enemy and fire away.

Nomenclature Information

- Designer: NAM Terratech
- Manufacturer: NAM
- Name: Power Armor Tower Shield
- Nomenclature: NA-M11-S3600
- Type: Shield
- Role: Protection
- Height: 120cm (47in)
- Mass: 40kg (~88lbs)
 - [Damage Rating](#): Was DR 4 (Mecha) in the old system

12.7mm Stubby Chaingun

The [12.7mm Stubby Chaingun](#) is the surprise weapon installed in the bottom half of the shield.

- Location: Lower half of shield
- Purpose: Anti-Armor
- Secondary Purpose: Anti-Personnel
- [Damage](#): Varies depending on the [ammunition](#)
- Range: 4 KM in Atmosphere, Nearly Unlimited in Space
- Rate of Fire: Up to 750 RPM
- Payload: 250 rounds contained in a box magazine
