## **Colonial Military Administration**

The Colonial Military Administration is a branch of the military set up to help oversee newly established colonies; it was created in EE 002-v. The C.M.A. is provided with its own small military force whose sole purpose is to protect planets on a temporary basis until a proper defense can be constructed and an actual government can be set up. The administration is also responsible for all logistical demands of a new colony including the transportation of colonists, supplies, and building materials amongst other things.

## **History**

The Colonial Military Administration or C.M.A. was formed in EE 002-V or in Yamatai calendar in YE 37. They provided support to newly established colonies that came under the flag of the Kingdom of Neshaten. The Shukara Volunteer Navy has provided more ships to the C.M.A. after the activity of Netrunu'marol after their publically announcement of admitting to the bombing of Dayr and My'leke camps in EE 004. While there were no problems from these colonies by the Netrunu'marol, High Command made the executive decision to keep the C.M.A. busy with patrols and observation of these systems and act accordingly. The patrols intensified after the potential arrival of a new terrorist group that has yet to publicly claim their deeds.
