

Jui'ashen

General	
Age Group	18+
Educational	Advanced and Technical Education
Previous Division	I'oshen

Jui'ashen is a title given to [Neshaten](#) students whom are currently undergoing advanced forms of education. Jui'ashen is not cheap compared to the other educational divisions, as this is not free at all and costs money for students to attend. Jui'ashen is basically meant for students whom are 18 years or older, and is due to the rather technical classes that these students might take. A lot of the education Jui'ashen students receive is hands on technical training along with field trips into the industrial and private sectors to gain more of an understanding of what that student might be trying to learn.

In the students 3rd year they are able to take internships, this will basically permit them to enter into the job market while still attending school. During their time as an intern, they are able to secure their spot in a trade family, ensuring that they have a job upon graduation.

Skills

The following table is a list of skills that are common-place amongst Jui'ashen, however, unlike those in a military setting; these skills can be more openly defined by the player. Knowledge is always a required skill within the Neshaten. Players can also use the provided descriptions, or create their own.

Skill	Description
Knowledge	The student is very well versed in their Kingdom's laws, and knowledge.
Mathematics	The student knows several advanced forms of mathematics.
Fighting	Ideally the student is pretty well off in fighting skills, mastering the use of hand to hand combat, melee weapons, and even several different types of firearms.

OOC

Jui'ashen is basically University level.
