

Neshaten Defensive Structures

This article lists all of the ground based defensive structures found within the [Kingdom of Neshaten](#), some of these structures are designed to strike out at orbital targets, others at only targets in atmosphere.

Close-In Defense Structures

These are short-range weapon emplacements, traditionally designed to strike at targets between 1 and 20 kilometer ranges.

Medium Defense Structures

These are medium range structures designed to hit targets up to 120 kilometers away

Heavy Defense Structures

Traditionally found hidden within cities, these defense structures are able to reach out and hit targets up to 500 kilometers away.

Orbital Defense Structures

These structures are the ones designed to protect a planet from attacks from space, because of this, their range on the ground is limited only by the curvature of the planet.

Name	Status
Miine Planetary Defense Installation	Development Stage

Shield Defense Structures

These are structures intended to project a shield over a wide area.
