

Yuina'cema Merchant Family

Formed just a few years after the [Kingdom of Neshaten](#) re-established their civilization on Nesha Prime, they are known for designing, and building, the majority of the weapons found used by Neshaten soldiers, officers, and starships but also for designing gear as well. They've got designers who understand the difference between [Shukaren](#) and [My'leke](#) physiology, so that their weapons are designed to be compatible with both species.

While they aren't the only family that deals in weapon designs and manufacture, they are one of the most prominent and have nearly three thousand members, many of which bare the families' last name as a sign of respect.

Family History

The Yuinacema Family was formed practically right after the Neshaten settled Nesha Prime, they were comprised of soldiers from the Great War and originally the family embarked on security work, protecting the various towns that cropped up over time and helping to get people settled.

In ER 025, the Family began to make modifications to several weapons that they had brought with them, most of these were military grade and easy to modify but some weren't. In ER 084, their dabbling in modifications changed to them establishing a merchant family that handled weapons design and manufacture. It wasn't until almost seven hundred years later did they start building turret assemblies for some Neshaten vessels.
