

KS Card

A KS Card is a electronic banking transaction/debit card used within the [Yamatai Star Empire](#). It connects to financial institutions by the [PANTHEON](#) system. Each card is contact-less, with embedded integrated circuits that are accessed by RF induction [KS Card Reader](#) and provide secure access. To access a KS Card the person must have the right access. These sort of cards can identify their user and only work in the possession of their owner.

All KS Cards contain the following information stored within:

- User Identification
- Biometric security data
- User Account(s) information

A KS card can be used in stores and at Automated Teller Machines (ATM)s.

All KS Cards have the following visual features:

- The Name or Logo of the issuing organization
- The Name of the card holder
- The card number for the card
- Hologram logo for the NBY
- Expiration date
- (Optional) for a small fee, the person can have a custom image added.
