

Senate of Yamatai

The Imperial Senate of Yamatai consists of the elected system representatives of citizens of the [Yamatai Star Empire](#) which acts under the authority granted to them by [The Constitution of Yamatai Star Empire](#). Oversight of the senate falls directly to the elected Imperial Premier who is responsible for moderating discussion in the Senate to ensure fairness and compromise but the Empress/Emperor holds the authority to approve or veto proposals made by the Senate if she/he feels the proposals violate/conform to the ideals of the [The Constitution of Yamatai Star Empire](#). There are presently no term limits for Senators but there is a 5 year term limit for the Imperial Premier.

History of the Senate

The Imperial Senate was first created in [ye 23](#) with the creation of [Proposal #1, The Imperial Advisor Act](#), in which [Taisho yui](#) named advisors to help form the Yamataian government until the senate could be formed which formed the two government branches of [Yamatai Star Empire](#).

[Imperial Decree 15](#) by Emperor [ketsurui uesu](#) in [ye 28](#), was based on and superseded [Proposal #2 - Voting Procedure Act](#) and [#32 - Update to Voting Procedure Act](#), shifting from weighted votes of individual citizens to votes placed by System representatives.

In [YE 30](#) the senate saw a change in policies as Emperor [ketsurui uesu](#) resigned and named, [Taisho Motoyoshi Katsuko](#) as Empress. The senate proposed and participated in the [international_relations_conference_of_ye_30](#) with delegates from [Elysian Celestial Empire](#), [Democratic Imperium of Nepleslia](#), Kohana and even, [Melisson](#) representing the [sfrarabla_mishhuvurthyar_xhrafuklurp](#).

[Imperial Decree 19](#) issued by Empress [Motoyoshi Katsuko](#) removed the Senate's ability to effect matters directly concerning the [Star Army of Yamatai](#). Later in [ye 30](#), the senate was expanded to include all Yamataian Citizens, but this was later rescinded under [ketsurui himiko](#) in [ye 34](#) with the passing of [Proposal 104](#) and restructured under the adoption of [The Constitution of Yamatai Star Empire](#).

Responsibilities of the Senate

[The Constitution of Yamatai Star Empire](#) places the powers and responsibilities of the Senate as the following:

1. The Imperial Senate is vested with the power to create and revise law, by way of the creation of a Proposal which must be approved by majority vote and presented to the Emperor or Empress for approval or veto. In all cases of creating a law, the essential rights of all citizens must be respected.
2. The power to override vetoes by the Emperor or Empress of Yamatai provided that over 80% of the Senate votes to override the veto.
3. The Imperial Senate is vested with the power to manage the financial and material resources of the Empire, with the exclusion of those designated for defense.

4. The Imperial Senate has the sole power to elect and direct the Imperial Premier of Yamatai.

The Imperial Premier

The [Constitution of Yamatai Star Empire](#) designates the Imperial Premier as the executive director of the government's various departments and moderator of the Imperial Senate, ensuring there is compromise and fairness. She is a liaison between the State and the People. The Imperial Premier is vested with the power to conduct foreign affairs on behalf of the Empire and to create treaties with other nations, subject to approval by the Emperor or Empress of Yamatai. She can also appoint and direct leaders of government departments responsible for Imperial business.

The current Imperial Premier is [ketsurui_yuumi](#), as played by [doshii_jun](#). The Vice Premier is [ketsurui chiharu](#), as played by [kim](#).

The Senate in Roleplay

The Senate has been an ongoing Faction plot that primarily deals with generating the laws, treaties and policies that govern the [Yamatai Star Empire](#) and [star army of yamatai](#) since 2003. It is the chance as a player to directly impact the IC setting and government of the [Yamatai Star Empire](#) through political roleplay to the setting. It has no GM in a traditional sense but is governed by the GMs that play the Empress/Emperor, [wes](#) and Premier, [doshii jun](#) and [kim](#).

Becoming a Senator

As a player, you may claim any unclaimed worlds by posting in the [OOC thread](#) and then being granted it by [Wes](#).

Criteria

Here is the following criteria for approval:

- You have to **like** Yamatai, don't go trying to sabotage it from the inside.
- You're a elected official, have some sense. You will be expected to be the curator for your chosen world and may be prompted to add content to it.
- After you are approved, you can bring a relevant character, if any, or create a new [NPC](#).
 - New NPCs must be approved, still, however the process is much more lenient.

Once done - Welcome to the Senate! Don't forget to edit the information into this page when you're done.
