

Scientific Studies Service - Trainee

A trainee is a person in the [Scientific Studies Service \(SSS\)](#) who is still being trained. The term is used because they can still change their mind about what occupation they want within the organization.

A trainee usually is working on a degree with the [SSS](#) or is receiving vocational training.

When being selected, the trainee is referred to by the occupation and trainee. eg: Science Trainee, Pilot Trainee, Medical Trainee.

Trainees hold the rank of [GS-02](#) and receive a weekly salary of 75 KS.

The character should have the skill for the occupation, but it should be written to reflect that they are still learning. This differs from the [Intern](#) who has no formal training, and is not paid.
