

# Omega Wing

Omega Wing is one of the many Fighter groups within the [New Dusk Conclave](#) however what makes Omega wing so unique is that it was composed entirely of [BW-V-Starbreakers](#) which meant that entirely this Wing was operated by AI, or possibly Cyborgs whose mind were transferred. Omega Wing formed in early [YE 42](#). Entire Wing is an all female wing.

## History

Omega Wing formed after the [BW-V-Starbreaker](#) were designed by [Nyx Pine](#), and later built by the [Department of Engineering](#). They were put to service amongst the other Fighter wings before a group of the AI formed a new Wing, based on the fact of what they were, and the desire to prove themselves to the other squads.

## OOC Notes

Charaa created this article on 2020/06/26 15:05.

- I based this page partly because I was inspired by Madi Harper's Bravo Prototype Force
- So its clear, just because Nyx Pine had created the BW-V-Starbreakers does not mean she has control over this squadron.
