

# Combat Harness

A combat harness is a set of equipment for carrying military gear. It consists of a belt, suspenders, and accessory pouches. Other names for this include suspenders and load-carrying equipment (LCE) or load-bearing equipment (LBE).

This type of combat harness is widely available to characters from any [Faction](#) for about 50 [KS](#) or the local equivalent thereof. One place you can find these is at [Bravemart](#). They are made by various manufacturers including [Ketsurui Zaibatsu](#).

## History

Combat harnesses like this date back to the modern era, which in the [SARPIverse timeline](#) is considered ancient history. Soldiers have a wide variety of equipment to carry and these are still useful for attaching that gear to the body in a way that is tolerable.

## Description

The combat harness includes suspenders, a [web belt](#), ammunition pouches with grenade holders, a plastic water [Canteen](#) with cover, an entrenching tool (folding shovel) with cover, and a pouch for a small first aid kit that contains (at least) a bandage. A flashlight can be put on the opposite suspender but must

be purchased/provided separately. It is usually colored olive drab or sometimes another suitable camouflage color.

## Usage

The combat harness goes great with a [Star Army Coverall, Type 36](#) or other military-style fatigues. The [Star Army of Yamatai](#) keeps a stock of them at the [Central Fleet Depot](#).
