Akatski's KAIMON Ascendant Companion (Glowy)	
KAIMON/Ascendant Companion	
	<p>A strange out of water flying, bioluminescent fish, purple, with white spots and blue siding, it appeared to be descended of Jiyuuan tropical fishes. ¹⁾It is known to fly around Akatski, while also being curious about the world, almost like it had never been outside of lakes, or oceans. It is a well behaved, fish willing to follow orders.</p>
