

Duncan Whitaker's Armored Mask

This mask was custom made for [Duncan Whitaker](#), a known Bounty Hunter, Mercenary and overall Badass. It was ultimately created to keep his pretty face from accruing any damage. The coloring and starburst pattern are in dedication to the [Last Chance Orphanage](#).

Made of an interior layer of rubber to help with a comfortable seal and an exterior layer of Duramite on the front to provide strong lightweight protection. It is also coated in a beam dispersing agent to help with non-solid ammunition.

For amenities it comes with a built in comm system, sonic filters and a UV filter. Attached to the helmet is a small capsule along the jaw line that contains one hour's worth of air if needed for emergencies. There is also a small three bulb LED light atop the mask and a rangefinder along the right side.

The left lense rotates by hand and contains two optional spectrum lenses allowing sight beyond the visible spectrum. One is an acoustic spectrogram and the other is a thermographic imager.
