## Biography

Kuriko, being a psychologist, named the armor Sigmund for a small variety of reasons: the first being that she fancies Sigmund's [Armor Integrated Electronics System \(AIES\)](#) to have a deep and insightful personality, second as an honor to Sigmund Freud - an ancient but renowned psychologist, and the third being a belief that the armor's AIES has repressed sexual desires that it occasionally it fulfills when kills, and occasionally hits, are scored.

Notes:

- Freud was often known for his redefinition of sexual desire as the primary motivator in human life.
- The AIES is a standard AIES and lacks a personality. Kuriko merely personifies the actions of the AIES as if it were alive, when it is clearly not.
