

# Sebastian's Custom Gear

[Sebastian](#) was given extra money to spend on herself for whatever endeavors she wanted to partake in, thanks to a trust fund that her parents had started for her and the Temple had taken care of until she was ready to take on the world. As such, she has spent a part of it on these items. If she bought more than one, the quantity is listed as well.

## Kanzu

- Type: Half-sleeve shirt
- Role: Protection
- Mass: 1.5 lbs

## Material(s)

- SynArS(3)
- Exotic Fiber(2)

## Upgrade(s)

- Fluid Wicking
- Self-repairing Nanites
- Tightened Weave

**Description:** The Kanzu is made of a combination of SynArS and fibers from the plant-life of Iromakuhane, allowing it to be much more durable than expected. It also has the ability to wick away moisture, repair itself from most minor tears, and the tightened weave allows it to be against the skin. With each of the upgrades, it makes the Kanzu more resistant to ballistics, but of course would not prevent injury.

**Field Maintenance Procedure:** Any extra material not used in the making of the Kanzu is given to the purchaser for necessary repairs, though it would last only for long enough to make one or two.

**Price:** 620KD

**Quantity:** 5 Black

## Wanyama Ngozi Vest

- Type: Leather Vest
- Role: Protection
- Mass: 1.5 lbs

### Material(s)

- Leather (7)
- SynArS (3)

### Upgrade(s)

- Carbon-Nano Fiber Weave
- Self-Repairing Nanites

**Description:** The Wanyama Ngozi Vest (literally translated to Animal Skin Vest) is made primarily of leather. It is lined with SynArS material to give it a more comfortable feel, since there's no way to imbed the fibers into the leather. The Carbon-Nano Fiber Weave is imbedded into the SynArs, and the Nanites are in both.

**Field Maintenance Procedure:** Any material not used in the production of the Vest is given to the buyer. Only enough to help with repairs for two major rips.

**Price:** 550 KD

### Cargo suruali

- Type: Pants
- Role: Protection
- Mass: 2.5 lbs

### Material(s)

- SynArS(5)

### Upgrade(s)

- Fluid Wicking
- Self-Repairing Nanites
- Carbon Nano-Fiber Weaving
- Quick Access Pockets x2

**Description:** Cargo suruali are made only out of SynArS material. These custom pants are designed to look like Cargo pants, but have the added protection of being able to be self-repairing and having Carbon Nano-Fiber Weaving. They are able to wick away sweat and have two easy access pockets on the sides. They come in varying colors of black, green or tan.

**Field Maintenance Procedure:** Any material not used in the making of the pants are given to the

buyer to help in repairs.

**Price:** 620 DK each

**Quantity:** one of each color

### Zima buti

- Type: Literal translation: [boots:combat\[\]](#)
- Role: Protection
- Mass: 4lbs total

### Material(s)

- Leather(3)
- Steel(1)

### Upgrade(s)

- Hidden Plating at Toes and Heels
- Hidden Holster for Stiletto

**Description:** The Zima buti are made like any other combat boot with a two hidden extras. One is hidden plating that is at the toe and heel of each boot. The other is a sheath that is hidden on the inside part of the left boot for ease of access to a right handed person.

**Field Maintenance Procedure:** There would be no extra material for repairs, but the leather is of high quality and in little to no need of maintenance.

**Price:** 400 KD

### Duster

- Type: Old-fashioned long coat
- Role: Protection
- Mass: 5 lbs

### Material(s)

- Leather(7)
- SynArS(3)

### Upgrade(s)

- Carbon-Nano Fiber Weave
- Self-Repairing Nanites
- Hidden Pockets x2

**Description:** The Duster is just that, an old-fashioned long coat that is from the Wild-West of old Earth. It is still popular today, since it is primarily used for those not in law enforcement. This particular one is enhanced with Carbon-Nano Fiber weaving throughout the SynArS that lines the coat. Self-Repairing Nanites help keep the coat from getting too much damage and there are two hidden pockets on the inside of the coat for extra storage.

**Field Maintenance Procedure:** Any extra material not used in the manufacture of the Duster is given to the purchaser for repairs, though it is limited to one repair.

**Price:** 760 KD
