Inspiration and Creation

The characters and plot were inspired by the adventures of the [YSS Sakishima](#), which was based out of [Leo Star Fortress](#). The show itself was obviously inspired by long running hit [Kamen Sentai Nekoranger](#). While TNB had hoped for a hit that would continue to compete with Nekoranger every year, Leo Ranger was only a moderate success.

Spin-offs and Sequels

While the show is currently, officially on hiatus, TNB is contemplating a retooling for another season. Meanwhile the actress who portrayed Leo Diamond continues to perform the role as a member of [Love And Wrestling](#). The cross promotion keeps the show in the public eye while the current LAW season airs on TNB, and the merchandise sales are fairly impressive as well.
