

Mercenaries

Mercenaries are privately-operated military groups for hire. This page describes covers the status of mercenaries in the [SARPIverse](#).

Yamatai

In the [Yamatai Star Empire](#), private military forces have been banned since the [Military Centralization Act of YE 28](#). Private security forces are still legal so most groups of this type brand themselves as security contractors.

Historically, [Ketsurui Chiaki](#) (Daughter of [Ketsurui Yui](#)) worked as a mercenary.

[Takeda Fleet](#) provides fleet management services, primarily to internal [Yugumo Corporation](#) clients, and are not mercenaries *per se*, but their mission often includes security, escort, investigation, intelligence, reconnaissance, and other paramilitary services. They are employed when visual distance from the [Star Army of Yamatai](#) and other official [Yamatai Star Empire](#) ships and personnel is necessary for discretion. Thank them when your [Kikyo Pie](#) arrives without the delivery-person getting vaporized.

Kuvexia

The [Interstellar Kingdom Of Kuvexia](#) and [Kuvexians](#) brought a large number of mercenaries with them during the [Kuvexian Invasion of YE 41](#).
