

Dynasty

Dynasty is a combination training center, built in 43E shortly after the creation of Port Jiyuu, designed to cater to combat training and high versatility courses for aspiring experts and veterans of live combat. This extends to the general populace for health and wellness as well as personal defense and life style coaching. The facility houses fully functional hardlight training courses, combat capable training synthetics and live fire ranges with programable difficulties and customizable challenges, as well as VR courses. The facilities are open seven days a week with varying hours based on location and staffing.

About Dynasty

Dynasty dojo was originally founded by two ex-mercenary operatives looking to get out of the business and settle into a more comfortable and stable profession. First conceptualized by eventual CEO Wu Sun Kwon and his partner Davis O'Connel, Dynasty was eventually funded with financial backing by their former squad mate Yjmir Skaen and the funds saved from the various contracts fulfilled via PMC and Security work. The facility itself was primarily envisioned to cater to veterans, active members of military and security personal but eventually this broadened to the wider public after initial profit projections deemed it unstable. At current Dynasty Dojo serves as a for profit recreation and health center for any and all who are willing to pay the entrance fee or submit proof of active military service.

Before initial founding, Future CEO Wu Sun Kwon made a bet with Davis O'Connel that if they both survived fifteen years in active mercenary work then they would split the savings and use the money to found a business of their choosing and go into business together. Eventually this proved to be a reality and the duo found themselves free of their respectives contracts and with a few connections to boot. The soon to be completed Port Jiyuu proved to be an ideal starting point as the station soon to be complete status meant they would have a leg up on competition and allow themselves to cement a reputation among the population. With financial support from a still active mercenary contact Yjmir Skaen, the two were able to get the money needed to complete the initial purchase as well as fulfil any permit, license or regulatory checks needed to enter into business without any undo hassle.
