

# Motoyoshi Colonial Sector

The Motoyoshi Colonial Sector refers to both the region of space in the galactic-[Eastern](#) frontier of the [Kikyo Sector](#) and the Imperialist State of the [Yamatai Star Empire](#) under the governance of the [Motoyoshi Clan](#) that became recognized in [YE 43](#).

## History and Background

The [Fifth Expeditionary Fleet](#) originally mapped and colonized the region in [YE 30](#), it was only shortly under the flag of the [Yamatai Star Empire](#) before it was usurped into the [United Outer Colonies](#), which failed due to corruption and the [Second Mishhuvurthyar War](#).<sup>1)</sup>

The Motoyoshi Colonial Sector was officially named in [YE 43](#) and was previously referred to as the [Yugumo Cluster](#). It was named in regard to the [Motoyoshi Clan](#) which returned to the region in [YE 41](#) to promote and cultivate stability and continues to cultivate the [Yamatai Star Empire](#) claimed regions as an Imperialist State under their rule.

## Natural Features and Territorial Boundaries

The Motoyoshi Colonial Sector's natural boundaries are the northern fringes of the [Yugumo Nebula](#) to the

north along the [Kingdom of Neshaten](#) border, then south to the [Tange System](#) and [Miyamae System](#). The [Ayumi Nebula](#) to the south and southwest, as well as the old [Fifth Expeditionary Fleet](#) defense line that runs up just to the west of [Mitsuya System](#) and the [Yuuki System \(E-6\)](#) with the [Akuro Nebula](#) forming the northwestern boundary.

The Nebulae

The Motoyoshi Colonial Sector includes the [Akuro Nebula](#), [Yugumo Nebula](#), [Ayumi Nebula](#). The [Creepy Passage](#) provides a natural, useful covert transit corridor through the [Akuro Nebula](#) and [Yugumo Nebula](#). The [Misato's Passage](#) provides a transit corridor from the [Tange System](#) to the [Miyamae System](#) through the [Ayumi Nebula](#).

Star Systems

The Motoyoshi Colonial Sector includes 19 explored and mapped star systems. Nine of which are part of the [Yamatai Star Empire](#), Seven are [Independent](#), as well as three systems currently under the care of the [Yugumo Science Symposium](#) and the [Lorath Matriarchy](#).

Regional Governments

The [Motoyoshi Bakufu](#)<sup>3)</sup>, also known as the Imperialist Regional Government of the [Motoyoshi Colonial Sector](#) was formed in [YE 43](#). The government is a clan-appointed body that consists of the planetary governors of the worlds claimed by the [Yamatai Star Empire](#), other local leaders, and is led by the planetary governor of [Jiyuu III](#)<sup>4)</sup>. They are responsible for the creation of regional laws, and management of local government departments, and serve as a unified voice for their citizens. They often cooperate with the elected Senators to the [Senate of Yamatai](#) to ensure the views of their constituents are properly represented.

Emphasis was placed on this body in [YE 44](#) following the resignation of [Ketsurui-Motoyoshi Katsuko](#) as the [Imperial Premier](#) and her report of [United Outer Colonies](#)-like liberal politics being represented in the [Senate of Yamatai](#) by [Iemochi Seinosuke](#).<sup>5)6)7)</sup> It triggered the body of the regional government to begin seeking protection and identification as an Imperial State devoted to the ideals of the [Yamatai Star Empire](#) under the rule of [Empress](#). Politicians inside of the government have also tried to stress the threat of liberal politics in the region due to the connection to Tange terrorism.

## Independant Governance of Mitsuya and Miyamae

[Miyamae System](#) and [Mitsuya System](#) both have small planetary governments which frequently interact with the other powers in the region.

## Major Corporations

Corporate Entities operating in the region include:

- [Yugumo Corporation](#)
