

White Harbor Station

Shiroi Minato – more commonly known by the Nepleslian translation 'White Harbor' – is a heavily modified [Ge-H1-7A - Kōdaina Minato-Class Orbital Installation](#) that was built in BYE 59 for the [Murasaki Keiretsu](#) as a trading hub and base of operations for its [Trinary Star Shipping](#) and [Frontier Industrial Mining](#) subsidiaries.

Due to the greater than thirty million permanent residents and high traffic volume, White Harbor station operates under a joint administration between the Murasaki Keiretsu and the [Yamatai Star Empire](#). The residential sectors and customs facilities operate under the direct control of the Yamataian government, whilst the rest of the station is generally operated by Murasaki Keiretsu station personnel alone.

As of YE 34 the station is located in orbit of the planet [Anisa](#) at the L2 Lagrange point.
