

Jiyuu VI

Jiyuu VI is the sixth planet in the Jiyuu System, it is part of the Yamatai Star Empire.

About Jiyuu VI

Jiyuu VI was discovered and studied in YE 29 by the YSS Akuro II, the flagship of the Fifth Expeditionary Fleet. A super-massive gas giant planet with gases oddly resistant to combustion, it would have become a star had it been made of different materials. The planet spins at a very fast speed, stretching the planet's diameter to 150% of its pole-to-pole distance.

In YE 30, the scientists of the United Outer Colonies established an orbital base for the study of the effect of high gravity environments on materials and systems. The base, however, was abandoned when the Jiyuu System was invaded by the NMX in YE 33.

Statistics for Jiyuu VI	
Type	Gas Giant
Facilities and Bases	No
Colony	No
Population	None
Moons	14 Moons

Places to Explore or Salvage

This planet is a gas giant so there are no surface regions to explore or develop.

Orbital Assets

Jiyuu VI has several orbital installations:

Defense Systems

The Star Army of Yamatai established a "Guriddo" Defense System as part of the Jiyuu System Defense Plan laid out by Ketsurui-Motoyoshi Katsuko in YE 42. The system includes:

- 20 Ke-H5-W3200 "Kyouheki" Defense Platforms each typically controls two Ke-H5-M3200 "Nesuto" Docking Platforms, but can handle more.
 - 10 Ke-H5-M3200 "Nesuto" Docking Platforms each with 18 Ke-H5-W3201 "Suzumebachi" Attack Drones

- 180 [Ke-H5-W3201 "Suzumebachi" Attack Drones](#)

Satellite Network

The planet also has an orbiting network of [Emrys Satellites](#) for communications that were deployed by the [Star Army of Yamatai](#) in [YE 36](#).

Abandoned Gravitation Research Lab

In [YE 30](#), the scientists of the [United Outer Colonies](#) established an orbital base for the study of the effect of high gravity environments on materials and systems. This now abandoned facility remains intact and in a low-power operations mode. It has been claimed by the [Yugumo Corporation](#), but no clear plans for the facility have been laid out. Rumors have circulated that the base was used for secret, off-record research that may have included weapons production by the Tange Clan.

Project Staging Area

In [YE 29](#), under the orders of [Ketsurui-Motoyoshi Katsuko](#), the [First Expeditionary Fleet](#) moved ships into the outer orbit of Jiyuu VI for a Special Project. The ships include the following from the [First Expeditionary Fleet Assets and Organization](#):

- [YSS Concordia](#), a [Sharie-class Battleship](#) variant
- [YSS Mazu](#), a [Takumi-Class Expeditionary Command Cruiser](#) named after a deceased 5XF officer Todd Mazu
- 1 x [Chiharu-class Flagship](#) project use.
