

# Siren I

Siren I is the first planet in the [Siren System](#). It is part of the [Yamatai Star Empire](#).

## About Siren I

Siren I was mapped and explored by the [Fifth Expeditionary Fleet](#) in [YE 30](#). It was dismissed as a relatively worthless rocky planet until [YE 42](#) when geological surveys found [ruthenium](#) and [palladium](#) deposits in rich quantities in the northern hemisphere of the planet. The [Yugumo Corporation](#) added automated extraction facilities in early [YE 42](#).

Statistics for Siren I	
Type	Terrestrial Rock Planet
Radius	2.06 x 107 km (0.14 AU)
Period	8.14 x 102 hours (0.09 earth years)
Gravity	13.52 m/s2 (1.38 x earth)
<a href="#">PAINT</a> Station	No
Facilities and Bases	Automated / Secret <a href="#">Star Army Bases</a>
Colony	No
Population	None

## Places to Explore or Salvage

Siren I has some interesting locations:

### Unknown Crashed Ship

During the construction of the [Nemesis Bastion](#), it was noted by engineers that there was an unknown alien crash site approximately three hundred kilometers West of the X-6 base entrance. No investigation was done at the time, the state of the vessel nor its contents are known. It does not fit any known configuration.

## Nemesis Bastion

A [Star Army of Yamatai](#) secret base [Nemesis Bastion](#) is located on this world.

## Automated Mining Facilities

Several automated extraction facilities similar to those found on [Jiyuu I](#) are located here. The ore mined is processed at [Port Siren](#).

## Orbital Assets

The [Star Army of Yamatai](#) established a "[Guriddo](#)" Defense System as part of the Siren System Defense Plan laid out by [Ketsurui-Motoyoshi Katsuko](#) in YE 42. The system includes:

- 20 [Ke-H5-W3200 "Kyouheki" Defense Platforms](#) each typically controls two [Ke-H5-M3200 "Nesuto" Docking Platforms](#), but can handle more.
  - 10 [Ke-H5-M3200 "Nesuto" Docking Platforms](#) each with 18 [Ke-H5-W3201 "Suzumebachi" Attack Drones](#)
    - 180 [Ke-H5-W3201 "Suzumebachi" Attack Drones](#)

The [Yamatai Star Empire](#) placed global communications networks of [Emrys Satellites](#) into orbit of all of the system's terrestrial worlds in YE 36.

## OOO Notes

[Andrew](#) created this article on 2020/02/02 20:10.
