

ISC Big Bird

The **ISC¹⁾ Big Bird** is a [Ge-L3-1A - Vampire-Class Patrol Craft](#) Craft owned by [Luca Pavone](#) and used to transport the [ISC Phoenix](#) crew. It is yet to be modified, save for a paint job and cursory maintenance.

History

The ISC Big Bird was originally a Reds spacecraft, known only by its serial number, **BZ5019**, and was left behind with the passwords by Danny Hanley Lewis as a gift for sparing his life. It was then stolen in the aftermath of the ISC Phoenix Missions 5 - *Anger Management* and 5.5 - *Stormin' the Castle*. After the debrief of the mission, it is now considered part of Luca's legal possessions. Deeds and all.
