

# NSS Nerkat

The NSS Nerkat was a cruiser under the flag of the [Star Army of Nepleslia](#) and captained by [Tamara Novikov](#).

## Nerkat in Roleplay

The NSS Nerkat was a Action/Social ship based of the lives of those that serve the Nepleslian military from all walks of life, [ranks](#) and [occupations](#).

The progress of the Nerkat was mostly done through [single posts](#) (SP) and [joint\\_posts](#) (JP) at pre-scheduled times. Players were free to post side JPs for their own rapidly changing inter-character subplots, as it advanced the plot much quicker

## History

Tamara gained formal command over the vessel while she was at Starbase Hayes to various usual maintenance.

The plot has just started, there is nothing to say here.

## Job Opportunities

The NSS Nerkat is always looking for marines and other combat oriented crewmembers. As well as standard Power Armored marines, there are special openings for starfighter pilots and other interested throttle-jockeys.

The NSS Nerkat is also looking for experienced crew and officers to fill out the upper echelons of the ship's command and provide leadership to newer members. As well, there is a demand for medical, technical and care crew to pitch in and support the combat personal. [Nepleslian](#), [ID-SOL](#), [Human](#) are preferred, but [Freespacers](#) and some [Yamataians](#) (Nepleslian citizens only) are welcome.
