## Plot Overview

With the [Second Mishhuvurthyar War](#) over and Nepleslia at an unexpected downtime, the Nepleslian Star Navy commissions a new Division under the First Assault Fleet, "Rememberance Division." Rememberance Division is a tactical-carrier strike division, a carrier leading a selection of battle groups. These individual battle groups contain their own [escort carrier](#) as a command vessel, then a set of heavy combat vessels from battleships down to a destroyer screen. Each battle group can be rearranged slightly ship-wise to accomplish certain objectives.

Following the one-hundred ship division is a heavy supply group, very lightly armed and defended this supply group prefers to stay well away from combat. Though once combat is over and the shell casings are on the deck, the supply group arrives to repair and resupply the combat fleet with the crucial items of men and munitions.

The fleet is currently based around Nepleslia.
