

Special Investigations Unit 4

Special Investigations Unit 4 is a civilian plot about the efforts of its members to serve and protect the people of Yamatai while investigating and solving a wide variety of crimes. Its players take turns as Game Master, with the current [Game Master](#) being [ShotJon](#).

Posting requirements:

-If a player doesn't post in 5 days without warning, I will auto their character. In situations where we are moving at a very steady clip, this may be shortened. If this is the case, I will not cause your character permanent harm (but don't suddenly drop off the map in the middle of a gunfight!)

Overview

Unit Four is widely regarded as one of the unluckiest units in the [Yamatai National Police](#). It has been the bane of many careers, and, in [YE 33](#), the only [YNP](#) unit to have suffered 100% casualties in the course of duty. Now, with a retired veteran in charge and a host of unfamiliar faces, Unit Four is born anew.

Latest News

Currently, Unit 4 is escorting a VIP in the midst of a riot.
