

Random Body Measurements Generator

Because there was once a "measurements" box on the character template there have been many players asking what to put in the box. Well, here's a possible solution! We are pleased to present this random body measurements generator for your convenience.

Results

Refresh the page to generate another result. There's a metric version and a US Imperial version.

- The character is 156 centimeters tall with the measurements 35A-26-37.
- The character is 5'11" with the measurements 34D-21-35.

Related Info

This is just for general purposes and designed for humans. For [Nekovalkyrja](#) you may want to tweak the numbers a little to have them be shorter and more slender. For more information see our wiki article on [Female Measurements](#).

Here's a site I found that might help you visualize your character's body shape: [Body Visualizer](#)

OOC Notes

 **Fix Me!** needs metric sizes in the metric version.
