

Central Fleet Depot

The Central Fleet Depot is the headquarters of [Star Army Logistics](#). It is located in the military-industrial city of [Central Uesureya](#), [Yamatai \(Planet\)](#).

The [YSS Tomoyo](#) and many other supply ships are based out of the Central Fleet Depot.

History

When the Star Army was formed in [YE 22](#), it adopted [Central Uesureya](#) as its primary logistics hub.

In [YE 24](#), at least part of the depot was formerly known as the [PNUgen](#) Central Uesureyan Storage Depot. During the [Second Draconian War](#) it was commanded by Major Mishikawa Kurasawa of the [Grand Star Army](#)¹⁾.

At some point, the Star Army Logistics moved its headquarters to nearby [Uesureyan Fields](#), and [Nataria Fleet Depot](#) became the main hub for logistics until the [Nataria star system](#) was captured by the [NMX](#) in [YE 31](#) during the opening of the [Second Mishhuvurthyar War](#), forcing the ancient depot back into service until Nataria was retaken in [YE 33](#).

The starport facilities condition in [YE 38](#) were described in the [YSS Eucharis](#) RP²⁾: “The concrete floor was cracked and the scaffolding around the edges was covered in peeling paints in variously shaded layers, or streaks of rust that matched the ones coming down from the roof. The drainage ditches around the

edges of the hangar were full of old nuts and bolts, brass ammunition cases and belt links, and random weeds eking out an existence from the sunlight that shined in through clouded, weathered window panes of nano-glass above. A variety of cranes, container movers, and various vehicles were lined up along one wall of the enormous hangar while the other was taken up by one to two story offices, their windows filled with damaged blinds and antique furniture and computer consoles from the early YE 20s. Outside the hangar was a railroad track for moving ship parts and a large landing area surrounded by other hangars. Already a number of flatcars with starship parts were waiting on the rail nearby. A road led towards the city skyline populated by skyscrapers in older styles.”

On [YE 39.5.20](#) ([Kikyō No Sekku](#)), Star Army Logistics moved its headquarters from back to its original YE 22 headquarters location³⁾. The Star Army began a major refurbishment effort, adding new state-of-the-art facilities to the newly-designated Central Fleet Depot.

As of [YE 41](#), the Central Fleet Depot has once more become a key center for Star Army Logistics.

In [YE 46](#), the first large scale teleportation pad was secretly installed in a secure underground facility reachable by starship-sized cargo elevators, giving the Central Fleet Depot the ability to rapidly and discreetly move supplies and ships to a sister pad in the [Nataria Fleet Depot](#).

Description

The Central Fleet Depot is sprawling and massive. It contains both vast older facilities from before the Star Army was formed (many of which are showing their age) and huge newer warehousing complexes built since [YE 39](#). These buildings are both above ground and below ground in extensive tunnels running deep into the rock.

Capabilities

The Central Fleet Depot has powerful on-hand expertise and systems that allow it to reliably track materiel assets to ensure they are visible, accountable, and accessible. It identifies, evaluates, inspects, inventories, stores, secures, packages, containerizes, and ships items to anywhere in the universe (and occasionally, beyond).

The Central Fleet Depot specializes in assemblies, kits, packaging, and containerization. It can upgrade and standardize retrograde, used, or older [Star Army Equipment](#) returning from the battlefield to make it ready to distribute again and can assist with resets of units to standard inventory. It also can configure and calibrate electronic systems and computers.

The Central Fleet Depot is the primary manufacturer of textiles such as [Bulletproof Wool](#), [Star Army Uniforms](#), and a major storage area for Organizational Clothing and Individual Equipment (OCIE) including sidearms and hand weapons. Additionally, the Central Fleet Depot is key center for [Zesuaium](#) production and recycling and produces combat armor for starships and power armor sets.

Facilities

Some of the facilities that the Central Fleet Depot includes are:

- [Star Army Alterations and Embroidery](#)
- [Star Army Barber Shop](#)
- [Star Army Clothing Store](#)

- [Star Army Standard Hospital Center](#)
- [Star Army Post Office](#)
- [Star Army Surplus Store](#)
- [Trinary Star Shipping](#)
- [Star Army Engineering Office](#)
- [Star Army Logistics Office](#)
- [Star Army Reconnaissance Office](#)
- 1 [Ke-P8-R4600 Teleportation Pad](#) in secret underground bunker

Dining

- [Tokyo Brewing Company](#) BrewPub location
- [Flavor Of Victory](#) (since YE 45)
- [Kikyo Pie Company](#) (pizza)
- [Meat On A Stick](#)
- [The Pangalactic Chophouse of Waffles \(Pan-CHOW\)](#)
- [Ramen To Go](#) with [VCE Cafe](#)
- [Warm and Sweet](#)

Transportation

Because [Central Uesureya](#) is the center of the planet's rail network, it has excellent rail options. The depot has direct rail lines to [Black Sands Test Range](#), [Uesureyan Fields](#), and [Kyoto](#). It also has rail access to other nearby cities such as [Port Xenn](#) and [Tania](#). The Central Depot is home to an enormous rail yard/depot, and has internal rails running to all the hangars of its starport, to its many factories and warehouses, and down into the maze of underground tunnels and bunkers.

Additionally, hundreds of military transport ships and shuttles land and depart the spaceport each day, going to all corners of Yamatai-controlled space, so it is easy for someone in the military to get a ride.

As of YE 46, the Central Fleet Depot can also be reached by directly teleporting from the [Ke-P8-R4600 Teleportation Pad](#) at the [Nataria Fleet Depot](#) or [Uesureyan Fields](#), though this is not known to the public.

People

The Central Fleet depot's population is almost exclusively composed of Star Army soldiers, mostly in the logistics field, so you will see a lot of uniforms with orange panels. This also means the population tends to be Nekovalkyrja and working-age Minkan, with males only making around a quarter of the population.

Contacts

[Nakeysha Smalls](#) is the current primary secretary for the Central Fleet Depot.

RP Opportunities

The Central Fleet Depot is the headquarters and hub of Star Army Logistics, which means Star Army and allied characters visiting here are able to find unparalleled expertise in sourcing and repairing military supplies or getting transportation of cargo to remote corners of the galaxy. There is a little of everything here in the vast warehouses and stockpiles—if you have the right access and ask the right questions...rare gear, captured enemy items...the list goes on...

Local Rumors

- The depot is so vast that sometimes people get lost and go missing in it
- The depot has a secret collection of gear and technology acquired from other universes
- The depot has an inventory of items made to be used in other universes like [Ayenee](#)
- There's still old [PNUgen Corporation](#) weapon labs hidden in the depot
