

# Libra Star Fortress Modifications and Interiors

This page provides unique information about the [Libra Star Fortress](#) systems and interiors.

## General Changes

### Command Center

[Star Fortress Command Center](#) has been customized for its purposes.

### Emergency Services

*Libra* has dedicated [Star Army Emergency Services](#) personnel and equipment.

### Escape Pods

*Libra* is equipped with [Star Army Escape Pod, Type 30s](#).

## Weapon Systems

*Libra* does not have [Remote Aether Shock Arrays](#) opting instead to deploy the "[Guriddo](#)" [Defense System](#). See [Station Defenses](#).

## Detection System

*Libra* uses a network of [Star Army FTL Sensor Drones](#) to give it increased range at detecting enemy vessels.

## Star Army Post Offices

*Libra* operates a number of [Standard Star Army Post Offices](#). There is one in each concourse for use by crew members of [2XF](#) vessels docked to the fortress, and the station occupants. The main [Post Office](#) is located in the core this is where all mail actually is shipped out of and received.

## Medical Facilities

The *Libra* has a [Star Army Standard Hospital Center](#) in the core.

- Also features [Type 30 Mental Transfer and Backup Units](#) installed to replace the older version.

*Libra* has six [Autonomous Medical Treatment Centers](#) one per arm located in the middle, that serve as emergency medical facilities/triage.

## Security Upgrades

*Libra* has the following security related upgrades:

- [Type 31 Lifeform Detection System](#) installed in critical sections.
- [Forcefield-Nested Isolation Doors](#) replaced standard shutters for critical areas.
- [Ke-09 T.O.R.I.](#) hardware deployed in strategic areas.

## Core

### SSS Facilities

*Libra* has the following [Scientific Studies Service \(SSS\)](#) facilities:

- [Satellite Campus \(Large\)](#)

- [Liaison Offices](#)

## Training Facilities

*Libra* has expanded its training facilities. Five decks of the core were turned into simulators like those on board the [Henry Chen-class Training Ship](#).

### Starship Simulators

For starships, the simulators consist of working simulations of most common [Star Army of Yamatai](#) ships such as the [Plumeria-class \(2D\) Medium Gunship](#), [Yui-class Scout](#) and [Nozomi-class Scout](#). The simulators typically include bridge, engineering systems as these are the most typical duty locations. When in use, the simulators function in a realistic manner, and are capable of simulating gravity, inertia, combat situations. Through the use of controlled [Nodal System](#) activity can create realistic battle damage, including minor explosions.

### Power Armor Simulators

The [Power Army Training Facilities](#) were upgraded but are otherwise unchanged.

## Cloning Facilities

*Libra* is equipped with a [Mass Cloning Facility, Type 30](#). The facility will assist in the production of soldiers for the [2XF](#). This combined with the expanded training facilities allows the fortress to augment [Fort Shotou](#)'s production. This additional capability is vital to the survival of the [2XF](#) in its remote location.

## Docking Arms

*Libra* has six arms, which are assigned to various purposes:

- View more details about [Arm Alpha](#)
- View more details about [Arm Bravo](#)
- View more details about [Arm Charlie](#)
- View more details about [Arm Delta](#)
- View more details about [Arm Echo](#)
- View more details about [Arm Foxtrot](#)

## Common Aspects

Each arm contains two concourse levels (upper and lower) with 20 docking stations on each side of each

and one dock at the end (usually for the largest ships) for a total of 42 docking stations per arm and 252 per star fortress. Docking stations are evenly spaced at 250m intervals.
