

# Star Army Engineering Protective Jumpsuit, Type 31

The Type 31 Engineering Protective Jumpsuit (EPJ) was designed for the [Star Army of Yamatai](#) in [YE 30](#) for use the following year and was discontinued in [YE 36](#).

## Objectives

The Star Army set the following goals:

- The suit should be a one-piece garment that is easy to put on and can be worn with OR without a duty uniform beneath.
- The suit should also include protective gloves and optional overboots
- The suit should be compatible with the [Star Army Helmet, Type 30](#).
- The suit has to be form-fitting, so it fits in maintenance tunnels and won't get caught on things.
- The suit should be fireproof, in case of on-board fires.

- The suit has to provide radiation protection, in case of engine leaks and such.
- The suit should provide excellent protection against electrical shocks
- Knees and elbows of the suit should have extra padding for crawling in maintenance tunnels.
- The suit should be available in red (engineering/technicians) and light blue-gray (general purpose)
