

Star Army Minor Science Equipment

An updated list of minor scientific equipment used by the [Star Army of Yamatai](#).

About the Minor Science Equipment Catalog

These are standard, minor products used by the Sciences in the [Star Army of Yamatai](#). Most items are fabricated in onboard facilities or the [Universal Hemosynthetic Fabrication System Type 43](#). Fabricators can make customized products but these are the basics. Prices are based on energy consumption to fabricate and are present for logistics purposes and tracking.

These items can be recycled by the [Nodal Liquid Conduit System](#).

<blockquote>Info: Generally these products are too basic to have a dedicated wiki page, so we've composed a list for your here.</blockquote>
