

Second Fleet

Second Fleet is one of the core space fleets of the [Star Army of Yamatai](#) and is made to conduct large-scale space warfare against other space navies. It is currently commanded by [Taisho Hokusai Akiyo](#).

The Second Fleet is based at [Nataria](#).

History

The original second fleet participated in missions including: Albini Planetary Conquest, Occupation of Nepleslia, the Battle of Tau Ceti, the Elysian Battle of Ralfaris, the Jaaq'tah Battle of Ralfaris, and fought the Mishhuvurthyar in The [Battle of Nepleslia](#). It was destroyed in [YE 29](#) by the [Sfrarabla Mishhuvurthyar Xhrafuklurp \(SMX\)](#), and was officially reformed in [YE 30](#), approaching full strength again in [YE 31](#).

In [YE 36](#), the Second Fleet was designated as an invasion fleet, designated for conquering star systems, and was positioned in the [Nataria System](#). Secretly, the fleet was allocated to [UNION MAZE](#). Luckily, the [Defense Arrangement Treaty \(of the\) Alliance of Signatory States](#) was passed and second fleet prepared for another potential war scenario, [QUIET RAGE](#).

In [YE 38](#), the advent of the [Kuvexian War](#) caused a change in mission for the Second Fleet, which began to focus on fighting Kuvexians.

In [YE 42](#), the fleet defended the [Nataria](#) against a vastly larger [Kuvexian Military](#) force in the [Third Battle Of Nataria](#) and was almost completely wiped out, including losing their commander, [Taisho Fensalir Kelrina](#). The Star Army of Yamatai immediately began extensive work to give the Second Fleet new ships and new personnel. In late YE 42, [Eikan Minato](#) was named the new commander, and she served well in this role until being named [Chief of Star Army Operations](#) in [YE 45.1](#).

Without a Taisho in command following Eikan Minato's promotion, the Second Fleet engaged¹⁾ in a massive²⁾ battle³⁾ against the [Mishhuvurthyar](#) in [45.4](#) that led to it suffering an approximately 50 percent loss in combat strength.⁴⁾ This unexpected engagement, along with other recent fights against the Empire's old foe, forced the Star Army to reconsider its assessment of the Mishhuvurthyar and sparked the beginning of the [Third Mishhuvurthyar War](#). By YE 45.6, Taisho [Hokusai Akiyo](#), who'd previously been in charge of the [Third](#) and [Ninth Fleets](#) during the Kuvexian War and [Second Mishhuvurthyar War](#) respectively, was put in charge of organizing and leading the Second Fleet in the face of the new
