Premission 01 - The Wind At Our Backs

- The six new recruits of the [Toushi Starfighter Squadron \(7SF-01\)](#) gather up for their introductions at [YSS Densetsu](#) per [Taisa Motoyoshi Misato's](#) orders.
- [Nitô Hei Saori Toru](#) is hence joined by pilots [Santô Hei Raku Kishi](#), [Santô Hei Amaya Shiori](#), [Santô Hei Murasaki Emiko](#) and [Santô Hei Shin Nekki](#) as well as the Squadron's new [technician](#), the Nepleslian [Santô Hei Robert Conagher](#).
- [Taii Motoyoshi-Asano Namika](#) accompanies the rest of the Squadron on their first day outing, a leisurely evening trip to [Hotaru Star Fortress'](#) well known dance club, [The Falcon's Feather](#).
- At their arrival, the Launch Bay is seemingly out of order, no security officers in sight. Cargo crates cover the floor, obviously spilled out from the shuttle Ornaida, on which [Robert Conagher](#) had arrived at [YSS Densetsu](#) from [Yamatai](#).
- Once at the Feather, the Squadron is met by [Taisho Ketsurui-Motoyoshi Katsuko](#) and [Chujo Motoyoshi-Yamada Ayano](#), who forthwith departs their company.
- Moments after two explosions can be heard throughout the dance club, causing a lockdown. Speculations ensue, their conclusion being they are under a [parasite](#) attack and are thusly forced to maneuver through the infested corridors whilst escorting the [Taisho](#) to safety.
- [Pilots Murasaki Emiko](#) and [Amaya Shiori](#) alongside [technician Robert Conagher](#) were subsequently promoted to the rank of [Ittô Hei](#) for their good service.
- During the commotion, two [parasite](#) infected [Nekovalkyrjas](#) make their way by shuttle to their designated rendezvous point. Having successfully fulfilled their task, they are carrying a datapad containing the specifications for components related to [Hotaru](#) and [Himitsu's](#) new hyperspace fold drives.

YE 34

Mission 1.1 - The Chase

- After the successful rescue of [Ketsurui-Motoyoshi Katsuko](#), the [Toushi Squadron](#) is briefed by [Motoyoshi Misato](#) for their new mission. Their task is the safe retrieval of the stolen datapad and securing any loose ends to ensure all information leaks are eliminated.
- [Freyja Oinari](#) joins the team during the briefing.
- [Motoyoshi Misato](#), [Amaya Shiori](#), and [Murasaki Emiko](#) are assigned to Hayabusa V6 Starighters; [Saori Toru](#), [Robert Conagher](#) and [Freyja Oinari](#) to the T7 Racoon. They are to enter the damaged Production Bay, get the stolen datapad from Engineering, and get out. Sessei Gunship Squadron and Shinchou Gunship Squadron will support, leaving one remaining Gunship Squadron with the

YSS Densetsu.

- The squadron deploys with the gunships, and contact is made while the gunships act as a distracting force. the group tries to slip the shuttle in relatively quietly amid the fighting. [Amaya Shiori](#) and [Murasaki Emiko](#) have a heart to heart on the battlefield.
