

Standard Star Army Laundry Room

[Star Army of Yamatai](#) ships typically come with laundry rooms placed near crew living spaces.

Description

A typical laundry room has the back wall filled with five large washing machines and five clothes dryers. All of the machines are efficient front-loading designs with multiple settings available; each is designed to survive heavy use and allow to care for a wide range of fabrics, from delicate to coarse. Capacities of each machines allow up to 125 pounds of dry weight laundry.

Tables for folding clothes are bolted to some of the walls. One or two couches are also provided for crew members waiting for their clothes to finish.

Cleaning supplies such as detergent, fabric softener and bleach are provided by a dispenser inside each machine. See [Star Army Chemicals](#).

The Star Army used to put shaggy carpeting in the standard laundry rooms, but in [YE 38](#) it was deemed a fire hazard and removed, making the room easier to clean.
