

# Standard Star Army Wardroom

In the [Star Army of Yamatai](#), the wardroom is a compartment where the ship's officers can comfortably eat and dine. In larger ships, the wardroom is restricted to officers only, while on small ships without a dining hall, enlisted crew may also be allowed in the wardroom during most hours.

Standard wardrooms include a large center table with a built-in hibachi grill (first used on the [YSS Sakura](#)), surrounded by tables with booth seating on the walls and chairs opposite. The floor is typically made of tile or marble, and walls are covered in wood paneling and paintings.

A wardroom always has a galley (kitchen) and scullery (room for dishwashing/pots and pans cleaning) attached.
