

Star Army Infantry

Recognizable by their cornflower blue colored panels, these tough and numerous soldiers of the [Star Army of Yamatai](#) typically wear power armors and fight both in space and on planets.

They will typically be trained for planetary or space infantry roles during their time training. They often fight alongside personnel of other [occupations](#). More often than not, the [Infantry Nekoalkyrja Type 33](#) is cloned to fill the need for infantry in the Star Army. Very rarely are cornflower blue panels out of their armor during missions unless location or lack of equipment disallows them from using it. Infantry soldiers train constantly, both to combat boredom (between battles) and to hone the skills they need for victorious battles.

The [Yamataigo](#) (邪馬台語) word for infantry is *hohei* (歩兵).

History

This occupation is as old as the [Star Army of Yamatai](#) itself. There used to be a distinction between spacey-type [Nekoalkyrja](#) and Army-type Neko, notable most apparently in the colors of their hair. Spacey infantry Nekoalkyrja would have blue hair while their ground counterparts had green hair. Now that distinction is not so apparent as anybody can join and both space-born and ground forces receive the same training. Before the advent of power armor, there were also two types of ground infantry; heavy infantry used full body armor and/or vehicles whereas light infantry used only torso armor and may have been on foot. It is now the most common occupation within the military force.

Types of Infantry

There are two main types of Star Army infantry. They are listed below as well as pictures of their patches

and descriptions of expectations of each type of infantry.

Types of Infantry

The most common types of Infantry used by the [Star Army of Yamatai](#).

- Space Infantry:

Deployed from ships for boarding actions and typically use the [Mindy](#), which are used predominantly as fighter vehicles.

- Planetary Infantry:

Deployed to a planet's surface and typically use the [Daisy](#).

Eligibility

There are no prerequisites in becoming an infantryman of the [Star Army of Yamatai](#).

Training

After [basic](#), infantry receive [three months](#) of [training](#) and in that time, may learn survival training for different environments, demolition training, advanced weapon training, how to build structures, as well as fighting vehicle, support vehicle, and aerospace vehicle training. They are almost always sent on an away team during a mission. Cornflower blue paneled Star Army personnel are well-trained and adept at these skill sets by the time their training is done.

Specialty training and qualification courses for [Rangers](#) are administered at the [Star Army School of Advanced Infantry Combat](#). Over the course of three months, trainees are guided in advanced power armor tactics designed to teach them reconnaissance techniques. Training includes fighting the enemy to learn weakness, scouting terrain around an enemy installation, spearheading an away team, and

miscellaneous fitness and power armor drills.

Ranks

The minimum rank for this occupation is [Santô Hei](#) and the maximum rank is [Taisa](#).

Playing

Star Army Infantry can be found onboard starships where they conduct both defensive (repel boarders/provide point defense for a ship) and offensive (board enemy ships/attack enemy ships) operations. They can also be found operating on planets as away teams. These are known as Space Infantry.

Planetary infantry can be found within [Star Army Rikugun](#) units where they conduct defensive and offensive operations within planetary conditions. Within the Rikugun, infantry officers that are not given a command position (Platoon Leader, XO, Commander) are usually found within staff positions filling a number of positions from planning to logistics and intelligence if more specialized officers are unavailable.

If the infantry isn't in the direct line of fire, they are training to be able to survive combat. Here are other highlights on how to play an infantryman:

- They should appropriately check in with their superior or commanding officers.
- They should be focused on [training](#) exercises.
- They should gain an understanding of the [equipment](#), [weapons](#), [ammunition](#), [explosives](#), [vehicles](#), and other gear frequently used in the [Star Army of Yamatai](#).
- They should be ready to engage in combat and mission-specific tasks as directed by their commanding officers.

Skills

In addition to the [Star Army Common Skills](#), an infantryman's skills may vary based on their proficiencies.

Here is a list of additional skill areas an infantry person may have:

- Demolitions (explosives identification, manufacture, handling, disposal)
- Survival and Military (Finding water, land navigation, shelter construction, hunting, signaling, camouflage)
- Vehicles: (Mecha, tanks, cars, trucks, hovercraft. [Power Armor goes under Fighting and Physical])

As well as other possibilities depending on your character's history and interests.

Player Expectations

Players with infantry characters are expected to have a basic understanding of infantry tactics and be prepared to research those topics more in-depth.

List of Star Army Infantry

These are the characters currently listed as Star Army Infantry.
