

# Star Army Starships

The [Star Army of Yamatai](#) has thousands of starships. This page has a list of some of the more notable ones (ones that have their own articles). Note that this list includes starships that are no longer in active service, including some destroyed ships presented for historical purposes. If you want to see all the named ships in *current* service, see the lists of ships on each Star Army fleet's article. For a list of starships by type, see [Star Army Starship Classes](#).

## List of Starships

This list is pulled from the starships database (structured data on starship pages).
